DECLARATION OF ACCEPTANCE

OF LAND PATENT ASSIGNMENT
UNITED STATES OF AMERICA "Land Patent #845
-----*-----

KNOWN ALL MEN BY THESE PRESENTS: That, Charlette Sneed (a sovereign Woman), does hereby certify and declare as follows: That she accepts the assignment of all Rights pertaining to the described Land and property including but not limited to the Land Patent secured rights within the United States of America (Land Patent #845).

(1) The Land Patent Secured Land: The Character of said Land and property so secured by said Land Patent, together with all the rights, privileges, immunities and appurtenances of whatsoever nature thereunto belonging, is here legally described and referenced as:
"Those portions of Land within the South Half Section (S1/2) of Section Three (S3) Township Three South (T3S) Range Fourteen West (14W) of the San Bernardino Base and Meridian in California, containing three hundred and twenty acres located at and including: "Lot 390 Tract No. 12903 In the city of Inglewood, Los Angeles County, in the California State, as per recorded in Book 284, Page(s) 1 to 7 inclusive of maps, in the office of the County Recorder of said County. Together with all tenements, hereditaments, and appurtenances thereunto belonging, and the reversions, rents, issues, and profits thereof.

(2) NOTICE AND EFFECT OF A LAND PATENT. "A grant of land (Land Patent) is a public law standing on the statute books of the State, and is notice to every subsequent purchaser under any conflicting sale made afterward." Wineman v. Gastrell, 53 FED 697, 2 U.S. App. 581. A patent alone passes title to the Grantee: Wilcox v. Jackson, 12 PET (U.S.) 498, 10 L.Ed. 264. All questions of fact decided by the General Land Office are binding everywhere and injunctions and mandamus proceedings will not lie against it. Litchfield v. Register, 9 Wall (U.S.) 575, 19 L.Ed. 681.

Where the United States has parted with title by a patent legally issued and upon surveys legally made by itself and approved by the proper department, the title so granted cannot be impaired by any subsequent survey made by the government for its own purposes: Cage v. Danks, 13 L.A. ANN. 128.

(3) LAND TITLE AND TRANSFER. The existing system of land transfer is a long and tedious process involving the observance of many formalities and technicalities, a failure to observe any one of which may defeat title, even where these have been traced to its source, the purchaser must but at peril, there always being, in spite of the utmost care and expenditure, the possibility that his title may turn out bad: Yeakle, Torrens System 209.

If said assignment of related Land Patent is not properly challenged within sixty days (60), in a court of law, it stands as a certainty, because no other party has followed the proper steps to secure lawful title. The final certificate or receipt acknowledging the payment in full by a homesteader or Preemptor is not in legal effect a conveyance of land. U.S. v. Steenersen, 50 FED 504, 1 CCA 552, 4 U.S. App. 332

Wherefore, said Land Patent secured Rights stand as assigned forever secured in accord with the terms set in said Land Patent signed and sealed under the signature of the President of the United States of America.

Under the authority of the assigns named in United States of America "United States of America Land Patent #845" receipt of which is hereby acknowledged, "CHARLETTE SNEED" (a Trust) as the holder of all relevant title secured rights to the Land and property below described, does bring said Land and property out of Equity status together with all the rights, privileges, immunities and appurtenances of whatsoever nature, thereunto belonging and, does hereby remise, release and forever quitclaim the same to: Charlotte Sneed (a sovereign women), in her private natural At Law status as Land and property owner:
